Multiple treatments are needed in order to achieve long-lasting results.

Patch Test: All areas to be treated must be patch tested a week before treatment, including facial treatments and hair removal. This includes a thorough consultation and is charged at £25.00.

## EYE TREATMENTS

Eyes and eyebrows are two of the most important features of our face and yet they are often the most neglected. Our trained and experienced therapists can advise you of the best treatments to enhance your eyes.

### Lash lift and colour shot\*

This treatment will leave you with a sumptuous lash lift, making them look longer and fuller. Lash lift is a fantastic alternative to eyelash extensions and there is virtually no after care required. Can last 8-12 weeks, suitable for short or long lashes.

£50

### Billion Dollar Brow treatment

Get ready for perfect brows! Your eyebrows are assessed, moisturised, trimmed, waxed and tweezed to perfection. We will help you choose from henna or tint. Henna is a form of eyebrow tinting which stains the skin and the eyebrow hair. It can last up to 5 weeks on the hair and up to 2 weeks on the skin depending on your skin type and lifestyle. Elleebana brow henna is a vegan and cruelty free formula.

£30

### Microblading

Microblading is a semi-permanent tattoo technique popularly used to create the illusion of fuller, thicker brows. A few hair-strokes can be added to your current brows which will naturally enhance them, or for a more fuller look we can work to restructure your brows by lifting and replacing any absent hairs to give you a more defined shape. The choice is yours!
